

# WRUW provides B-ball coverage

For the fourth consecutive year, WRUW-FM will provide live coverage of CWRU basketball. This season, the coverage is being increased to include the exploits of both the Western Reserve and Case Tech teams. WRUW-FM News Director Rich Leaf will handle the bulk of the play-by-play, with assistance from Rich Greenberg and Mark Pearl. For Leaf and Greenberg, this will be the fourth season at the WRUW-FM microphones.

The first broadcast will be tomorrow night when the Reserve Redcats meet Thiel at the Adelbert Gym. The short first semester schedule will

conclude with the Reserve-John Carroll game on December 9. The first of three Case broadcasts will be on February 11 when the Rough Riders host Washington and Jefferson. Air time for all games is 7:55.

Also quick to respond was Robert Squelch, Sheriff of Orange County, Calif. "Tough Bob," as he is affectionately known by his friends, issued the following statement: "I have just taken steps to triple the police guard at the city's reservoir. I have reason to believe that hippies or other communist agents are planning to dump quantiles of water in it."

His move was applauded by Los Angeles Mayor Sham Shorty. "Hey, ain't ole tough Bob tough today!"

Wyant Filtch, President Nixten's economic advisor, speculated about the effect of a water ban on the nation's economy. He said he was especially troubled about the effect on heavy industry where so many of the factory workers depend on water to not die of thirst.

Zelda Braun, U.S. surgeon general, shared Filtch's concern. "Man oh man," she sighed, "I am not just concerned about factory workers, what about football players and everybody. Why everybody might die of thirst."

Dr. Pringle countered Braun and Filtch's statements. "Sure, everybody dying of thirst would be tough on the country. But I think the continued effects of water rationing might even well

Coaster" is a brisk demonstration of Walter's more than considerable talents while "Blue Midnight" is remarkable for the mood Walter is able to sustain. "Oh Baby" is a finely executed jump piece while "Everything's Going To Be Alright" has a fine low key vocal, a bluesy but not overly aggressive harp solo with superb guitar fills. "Blue and Lonesome" has a desperate vocal with stinging guitar, then Walter takes an over whelming solo using Chromatic harp which overwhelms. All in all a most enjoyable collection. Since Best of Little Walter has been recently deleted, this album has the added value of being the only Walter album currently available. It's highly recommended; we probably will never see Walter's like again.

Blues" was recorded recently by Johnny Winter and Winter's frantic performance suffers greatly in comparison with McTell's original. "Statesboro Blues" is a marvelously executed blues, possibly the most perfect recording in the idiom, not the most affecting but remarkable in totality. "Georgia Rag" is a vigorous ragtime piece, and "Travelin' Blues" features McTell's slide guitar producing very realistic train sounds. The level of the remaining ten tracks is similarly high and this set is a valuable addition to any blues or folk collection. Yazoo Records' address is 390 E. 8th St., New York, 10008.

## ANDREWS HOUSE

Andrews House, a University owned co-educational co-operative is currently accepting letters of application from juniors and seniors at Mather and Adelbert colleges. A few spaces are available for the spring semester, most of them in triples and quads.

Applications are to be made in the form of a letter to Miss Sally Hunter c/o Andrews House, 1626 Magnolia Dr. The letter should explain why the student wishes to live in a co-ed co-op, and most important is how and why he became interested in co-operative living. Letters of application are due immediately.

# Free university forming; Course ideas welcomed

**GANDALF:** the Cleveland free school, is a community-based free university being formed as an alternative educational institution. It is free in that it costs nothing to participate in it, and in that one of its bases is the concept of freedom to learn and to teach in a relatively unstructured environment.

Anyone in the Greater Cleveland area is welcome to initiate a course in any subject in which he or she is interested. Content could deal with anything from learning how to

change the present educational system to studying the history of the Vietnam war, to baking bread. Expertise is not a requirement for organizing a course, since it is hoped courses will be meetings of groups of peers interested in exploring a particular subject area.

While the free school will operate from a central office, coordinating individuals interested in the same subjects, classes will be held in individuals' homes or in free community facilities, such as

churches.

Although the free school is not a formally accredited university, it is possible that individuals can arrange special studies programs through the school in which they are enrolled to obtain credit.

At present, courses and course descriptions are being compiled for a catalogue that will be distributed in mid-January. Most groups will begin meeting in February.

Anyone interested in organizing a course, or in learning more about GANDALF, call 371-3528 or 462-2507.

Editor, The Observer:

Contrary to the intent of your article on skating, "Down by the Old Mill Stream" is not a two-step. It is a waltz.

It is rare to see such an obvious flaw in the entertainment section on an otherwise exemplary newspaper. No doubt you will want to call your entertainment editor to task for this discrepancy.

In future issues, to employ a well-trodden cliché, let's call a spade a spade.

## New uniform CWRU colors

By JOHN KOTLER

No, our revolutionary fervor has not become uncontrollable that the air force was called in. The men in blue who you may have seen today are security officers in their new uniforms.

Chief Michalski of the UCDF Police pointed out that only the security section of the force, which includes eighteen full time officers and student guards, will wear the new uniforms.

The thirty-two police officers will still have green uniforms. Michalski explained that the difference in color will make it easier to distinguish between security guards and police officers.

The colors blue and grey were chosen, for the security uniforms because they are the colors of CWRU.

It is open to conjecture whether the students will exercise enough self control to refrain from calling the security guards the Blue Meanies.

## WRUW reorganized

In a staff meeting Sunday evening, originally called to discuss the program schedule for the spring semester, John D. Cremer, Station Director of WRUW-FM, announced that a major reorganization of the station operation would take place in the first week in February. The goals of the station will be redefined during the month of January by a committee of students, faculty and administrators.

When asked his reasons for the announced move, Cremer stated, "It has become evident that, if the station is going to continue to grow and provide a meaningful service to the University community, the student staff must have an acceptable common goal. Such does not exist at the present time."

David Fracht, present student

General Manager of WRUW-FM, supported Cremer in his action. "I think it is a good move for the station since once a positive goal is offered to us, we on the staff will work toward that common goal rather than toward individual goals as we do now."

Cremer announced that he will be accepting written applications for staff positions until February 8, when a general meeting will be held to elect the major staff positions and implement a new program schedule consistent with the newly defined goals.

Fracht noted that the station will go off the air for Christmas recess at 2:00 a.m., Monday, December 15th, and will return to the air as soon as possible after the February 8th meeting. A decision about limited programming during January will be made this week.

## Tonight Union Cafe to present the Glass Harp from Youngstown

A highly recommended study break is offered tonight by Glass Harp's visit to the Union Cafe from 8 p.m. till midnight. Admission is free, of course, and food and refreshments will be available in the snack bar.

"Glass Harp" is one of Ohio's most original groups. The three young men from Youngstown perform much of their own material, featuring some exciting three-part vocal harmonies within very tight musical arrangements. They perform every Wednesday night at J.B.'s in Kent, and just recently made a concert appearance with the "Kinks". Their show is an interesting and enjoyable way to alleviate pre-exam tension.

The idea of the story is good. The book should have been good, but it isn't. The author himself seems desperate. But in his case he desires not human contact, but just impact. It is

Alice Knazy," and she knows "every horrible thing" about him. Frank manages to leer at the character he has created.

Writing does not have to be pretty. Kafka was anything but a pretty writer. In the Penal Colony, one of his short stories, contains a sickening description of an executioner's execution: The executioner is dying on the same machine of torture that has killed many others. The machine fails to function properly. The exquisite torture that the executioner once desired becomes plain murder: "Blood was flowing in a hundred streams... and now the last

breasts, with knot spectacles and acne, hideous combination Bartholomew shivered..." It seems Frank has tried to Bartholomew something same lonely, slightly anti-hero of Salinger's Bartholomew does a quality of standing a observing, being alone mocking the humans he for—this is a definite Holden Caulfield. But does not achieve a Caulfield in Bartholomew. The Creep is not The C. The Rye.

## D'poo's Tool and Die Works are hidden down in the flats

By MARK CORSON

D'Poo's Tool and Die Works manufactures high deceivable count rock. D'Poo's is part of the recently termed hidden city part of Cleveland down in the flats. D'poo's is probably the most successful of the various night clubs down by the river.

You will find D'Poo's Tool and Die Works is in operation on the night shift seven days a week. The bands at D'Poo's, like "Joyful Wisdom" or the "Damnation of Adam Blessing", put in a hard day's night of work playing hard rock and blues. Occasionally an out of town group like "Natchez Trace" from the southern college circuit will be featured for a few days.

Working conditions at the Tool and Die Works draws big crowds on weekends. To get in on a Friday night you have to pay two dollars union dues. Saturday the superintendent at the door reduces the dues to a dollar. The bar and tables are packed from nine-thirty on.

Over twenty-one on every night but Sunday, when it is eighteen leaves D'Poo's to grad students, seniors, and some

juniors as far as CWRU are concerned. Most of dressed young adults drop-in are single, make-up half the crowd

The exterior of shaped D'Poo's Tool Works looks like any grimy small factories Columbus Road. Only of sport cars parked adjacent streets and the black sign over the entrance tells you you have D'Poo's. Inside, pipes, gauges decorated the walls. They play on idea their neighbor the uses.
